

Viewing results

The Training Workx portal allows trainers to view the progress and results of each student.

Results show how often a student trained, which modules were completed, and the scores achieved.

You can access the portal at:

- Logistic Workx: portal.logisticworkx.com
 - Cleaning Workx: portal.cleaningworkx.com
-

Viewing student progress

1. Log in to the **Training Workx portal**.
2. Go to **Training** → **Students**.
3. Find the student you want to view.
4. Click **View Modules**.

You will now see which modules the student has completed and their current progress.

Viewing module results

To see the detailed results for a specific module:

1. Open the student's module list.
2. Click **View Results** for the module.

The results page shows:

- The number of times the module was played
- The type of session (training or exam)
- The score achieved
- The student's progress over time

	3. Bungalow Sanitary	View results					

Exporting results

If needed, you can export the results for further analysis.

1. Go to the **Students** page.
2. Press the 3 dots next to the green **New student** button.
3. Export the results as a **.csv file**.

This file can be opened in spreadsheet software for reporting or record keeping.
